About Roca Baltimore...

<https://rocainc.org/locations/roca-baltimore/>

OUR STORY With so much violence in Baltimore, we all have a role to play in bringing about change. Roca's role is small: focus on the young people who are in the throes of violence, the ones who are **not ready for change yet**. Our youth workers find them, knock on their doors relentlessly until they respond, build relationships, and bring them to Roca. We work with each one of them for four years until they build critical employment, education, and life skills, which help them build the safe life they want. We work with whoever we can to keep them safe, and use data and research to get better and prove that it works. We know change takes time, but we also know change is possible.

Dear Roca,

I have been introduced to your community empowerment by way of the TedTalk Title:

## Why Are We Stalking You? To Keep You Out of Jail | Molly Baldwin | TEDxPennsylvaniaAvenue

12,460 views • Mar 24, 2017

---

My name is James Martin Driskill and I currently live in San Bernardino California, my hometown.

I am age 54 and I have a great disturbing story to tell.

I have had to relocate and return to the family childhood home in my hometown and neighborhood that I grew up in since I was age 5.

This has been the 3rd time that I have had this dysfunctional recycled living from collapses of my independent housing

options in my personal life in a perpetual state of homelessness for over 15 years. This has not been my actual direct fault for these

conditions that have collapsed my independent housing residencies as I have traveled in and through different regional areas of the

country as a person living with the infection of HIV/AIDS since my first infected status in September of 1999.

I hear in the Roca video playing, "**Get Your Life Together School**" as you relate a community empowerment model successfully functioning in your communities.

What this brings into reference on my side of attempts of community empowerment is that in Denver, I attempted a startup project of an "adult consent thought and practices school" community empowerment interface to members of the community.

See YouTube [ [Highlighted Comment](#) ] on the topic of the startup, building upward, and the collapse of this school project from the source of these interfering efforts of community leaderships of the HIV community.

A profound statement is presented in your video playing as I write,

Roca relates, "**once we get a hold of you, we don't let go**", you say this video presentation titled above.

Well, here is where I am going to put you to a challenge. I have absolutely no regional areas off-limits for relocation back into a proper, stable, and independent living as a person living with HIV/AIDS in the United States. I must be living free of being a targeted individual of #GangStalking that has interfered hate, harassment, and retaliating efforts to oust me out of the community.

AND WHATSOEVER is the TRUTH, that should I choose the regional area in Maryland that your organization has operating establishment, that I would have a community resource to reach up into to #StopGangStalking and identify and terminate the source of this illegal activities that law enforcement and city and county leaderships will not engage involvement here -- they refuse to respond to my calling action of these matters. This started in 2005 in Oakland CA and the matter of negative hate activities targeting me has traveled with me each and every regional move I have made in my attempt to find a suitable and happy life to make newly established interfaces of healthcare relationships of HIV Doctors In the care of my disease, network outward in the community to find friends and enjoyable social calendar activities, and to generally have a function that supports the well being of my life presence. This instead of what is apparent, this hate faction that is working against the tide of any and all decency has been successful to ruin my life and continues to be a condition of our society that is allowed to remain present and condoned to operate.

This allowance has caused personal hardships in my life.

This includes broken friendships, life personal properties scattered into storage units, long-distance moving trucks, the costs to which are extensive onto my life. The quality of my life is just not on par with normalcy.

As I call it, HATE HAS BEEN and CONTINUES to be ALLOWED, INTENTIONALLY ALLOWED TO WIN.

There is something extremely working upside down [ 🙄 ] from the rational focused effort on my side to help the gay African American male internal of the HIV/AIDS communities that I have interfaced to social services inside these regional to regional areas that has ended up initiating hate targeting me.

I believe that the cause of the statistics that are related in this New York magazine article is directly caused by this hate conspiracy that I have convincing realism of unbelievable truth to the source of this hate, dysfunction, and disservice in the HIV communities. The evidence I hold the knowledge to share, I did not write such truth.

Please, do not shoot the messenger of this realism.

The truth here is at the level of the preponderance of the evidence shows [ more likely true than not true ], that the social services network of the originally structured organizations authorized into operation by the Ryan White Care Act in 1990 have a secret hidden agenda that has been carried out against the commons of the entire American Society and

individually against the commons of a supportive care function life interface for persons living with HIV/AIDS in The United States of America.

## America's Hidden H.I.V. Epidemic - The New York Times

Do you see what the subline of this article relates to?

Why do America's black gay and bisexual men have a higher H.I.V. rate than any country in the world?

In the world, Roca. In the world.

If I can get the full and completely responsible and respectful considerations of the community leaderships that I have chosen to contact and engage in the San Bernardino area here '[ addressed in this email CC ], where the #GangStalking efforts that have targeted me for 15 years continues to a presence that is interfering in my current 2020 day life. I have no interfaces to social services and I have no HIV doctor assigned to the care of my disease because of none of these resources can establish and maintain an honest relationship standing with me and inside the presence of my life. I have absolutely nothing holding me here but pure insult and injury to my life --- and a full disregard to the history of contributions and work effort that I have made to these cities computer literacy back when I was 18. They disregard my needs individually and has history states, they disregard me as a native-born resident of San Bernardino which holds long term family presence and ties into this very very very dysfunctionally body politic working in this city and county of San Bernardino including the local interfaces to law enforcement of the police and county sheriff's departments.

If I were to choose your region as a new possibility to rebuild a home presence again in my life, it would only be a choice against actually heading to the United Nations to establish the process to which I MUST RENOUNCE my UNITED STATES NATIONALITY to change to a different COUNTRY that DOES NOT ALLOW the HATERS to ALWAYS INTENTIONALLY ALWAYS WIN.

## JUDGE WILFRED JOHN SCHNEIDER JR.

As I was saying, if I can get the involvements of the contacts in this email to establish a teleconferencing community affairs meeting to stopping this hate in this community, I would like your remote witness presence that this meeting time and topics working focus talking points has been set into motion and that such agenda corrections actually take hold into change instead of more delay.

In other words, I do not have trust in the established leaderships of this regional service area of the Ryan White Care act along with the city leaderships being called upon and seated here, WITH VERY GOOD REASON TO HOLD THIS POINT OF VIEW.

In other words, as I need a reassuring pressure here to put upon them here to actually #DoSomething right here for a change,

I am inviting you to be a part of this focused community leadership team's purpose...

-- as fighting hate is the job for everyone,

Would you please respond and if you would like more direct evidence on the subject a conspiracy that has to be determined to exist and must be terminated, see social media tags under:

#ConspiracyExposedTerminatesASAP

#GovernmentSponsoredHate

#HivUntreatable

Thank you,
